## DAVENPORT

**Negro Is Beaten.**—A disguised negro attempted to extort money from two partly intoxicated electric linemen who came to Davenport from Des Moines Sunday afternoon. He followed them into an alley and there made his demands. Two other linemen appeared upon the scene and being sober, they sized up the situation correctly and proceeded to administer a terrific beating to the impostor. He was cut and bleeding and penitent when allowed to depart. No arrests were made.

**Runaway Boys Held.**—John Essig and Charles Matlary, two youths of about 14 years of age, are held by the police for having run away from their homes in Austin, Ill. Both youths came to the station Sunday night and asked for lodging for the night. This was given them and yesterday morning an investigation was made because of their youthful appearance. It was learned that both boys had left home about a week ago.

**Pays Fine to Government.**—A. H. Walrath, formerly employed on the government arsenal and who was bound over to the federal grand jury under \$500 bonds for larceny from the government, has been fined \$50 and costs in the federal court at Peoria. He paid the fine and has been released. Walrath, who was in business with another man on Upper Harrison street at one time, was accused of having stolen about \$15 worth of tools from the arsenal, where he was employed at the time of his arrest.

**Obituary Record.**—Mrs. Bertha Alvina Edens, nee Stuhmann, passed away Sunday night at 10 o'clock, at her home, 925 Ainsworth street, after an illness of two weeks' duration of pneumonia, at the age of 33 years. The deceased was born in Germany, June 19, 1878, coming to America, 16 years ago, and direct to Davenport, where she has since resided. Besides her husband she is survived by two children, Evelyn and Velma, and several brothers and sisters in Germany. The funeral will be held Wednesday afternoon at 2 o'clock from the home, 925 Ainsworth street. Interment will be in Fairmount cemetery.

## MOLINE

**Child Is Burned.**—The two-year-old daughter of Mr. and Mrs. J. A. Svedin, 420 Eighth street, was the victim of an accident at 11:30 Sunday forenoon, and she is fortunate that she did not lose the sight of both eyes. With the aid of a broom she tipped a pan of boiling water off the stove. She was badly burned about the head, but will recover.

**Dies Among Strangers.**—Berger Nelson, 30 years of age, who came to Moline last week and was suddenly stricken with typhoid fever, died Saturday afternoon at the city hospital. The body is now being held at the undertaking parlors of Esterdahl and Youngsberg, awaiting word from relatives as to disposal. The unfortunate man, it is believed, came here from Cedar Rapids. He was without acquaintances in this city. Letters found in his possession show that he had a mother and sister residing in Sweden. The letters were addressed to Nelson, in care of John E. Anderson, Lafayette, Ill., who probably was a former employer. Authorities are waiting to hear from a cousin who is said to live in Davenport.

**Obituary Record.**—Carl E. Poentitz, the aged gardener who suffered severe internal injuries several weeks ago as the result of being run over by a coal wagon on which he had been driving, passed away at the city hospital—where he had been confined since the accident—at 11:30 Saturday night. Mr. Poentitz suffered a stroke of paralysis as an outcome of the misfortune, and this added to other complications which developed, rendered his death not entirely unexpected. A native of Saxony, Germany, Carl T. Poentitz was born Aug. 22, 1841. He departed from Europe 30 years ago and on landing in America journeyed direct to this vicinity. For the first three years he resided in Davenport and then established a permanent residence in Moline. A widow and two sons, Carl F. and Max C. survive.

Miss Bryington and her mother have been living on \$50 a month sent them by a brother of the young woman, according to Joseph Stacy, her attorney.

## How Many Women Keep Young

"A woman may be old at 18 and young at 80," says Mrs. Margaret Holmes Bates, prominent Chicago clubwoman. "Years don't matter. Didn't Nino de Lenclos have a proposal at 90?"

The youth of our women is more lasting than it was a generation ago, because we are becoming acquainted with simple physiological laws. When the first aging marks appear—wrinkles, baggy cheeks, neck and chin—we realize that the cause is a loosening of the skin and softness of the tissue underneath. We know the cause must be removed. Instead of laying on pastes we send to the drug store for an ounce of saxolite and a half pint of witch hazel, mix them and bathe face, neck and hands in the solution. We know this tightens the skin, solidifies the tissue, induces a healthy circulation. We treat causes rather than effects. We use reason—and stay young.

## Get Your Money's Worth

The food you eat is worse than worthless if your digestive organs are out of order. Instead of properly nourishing, it will clog and poison the system. ## The Milk-Wagon Habit

### Madam, See What It Costs You

#### Mrs. Housewife—

Getting milk from the milkman is simply a habit, and millions of homes have outgrown it. There are hundreds of homes right around you who use nothing but Van Camp's.

Let us show what they gain, and how much you lose. This is a very important question.

#### Loss No. 1—Purity

Your milkman's milk isn't sterile. There are millions of germs in each drop. Sickness among children, in very large part, is caused by these germs in milk.

You know that. And you know the tendency toward pasteurized milk. That's the only real protection.

Van Camp's Milk is pasteurized. It is utterly sterile. There is not a single germ in a gallon.

#### Loss No. 2—Quality

Milkman's milk comes from all sorts of dairies, all sorts of cows. Van Camp's comes from model dairies and from Holstein cows.

We have dairies in seven states—each in the heart of a great dairying section. The cows are inspected—all milk is tested. Sanitation is a science in our plants. There is no finer milk in all the world than you get in each can of Van Camp's.

#### Loss No. 3—Richness

Milkman's milk separates quickly. The butter fat rises and the solids fall. Milk dipped from a can is never whole-milk. When that milk gets to the cooking it is rarely more than a half-milk.

Van Camp's is the whole-milk. The milk fresh from the cow is put into a copper vacuum. There, in moderate heat, we evaporate two-thirds of the water.

The milk as it comes to you is as thick as thick cream. It is 28 per cent solids, 8 per cent butter fat. It is so rich that folks always dilute it, even for coffee and cereals.

In cooking, this milk gives to milk dishes an amazing richness and flavor. Not because of any addition, for we add nothing at all. This is simply the whole, rich milk. But whole, rich milk will surprise you—you who are used to milk wagon milk. A single milk dish made with Van Camp's will forever convert you to the use of this milk. Until then, your neighbors are serving milk dishes twice as good as yours—all because of whole-milk.

#### Loss No. 4—Convenience

You buy from the milkman from day to day. You always must guess at your needs. When you get too much it is wasted. When you get too little you must go without. Think of the dishes

you want, and can't make, because the milk supply is exhausted.

You can buy Van Camp's a month's supply at a time. It is like a cow in the pantry. Have milk and cream, all you want, when you want it. No waste whatever, for the opened can keeps until you use it up.

#### Loss No. 5—Money

The strangest fact is that this premier milk—from high-bred cows, from model dairies—sterile, rich and pure—costs less than milkman's milk.

We save you the cost of the daily delivery. That costs more than the milk. By evaporating the water we save transportation. And we save you all the waste. In the average home the use of Van Camp's cuts milk bills right in two.

Because of these facts, we are now milking 30,000 cows daily to supply the armies of people who are using Van Camp's.

The 16-oz. can—a full pint of Van Camp's—costs 10 cents. The 6-oz. can costs 5 cents. That's with two-thirds the water evaporated. Your grocer gets it direct from our nearest dairy.
